

Regulatory Arrangements in N Ireland - May 2011

CCEA (Regulation), DCELLS and SQA (Accreditation) are considering how each can implement regulatory arrangements which align with the Ofqual Recognition Conditions and Criteria, either by mirroring these or by adopting an approach which keeps to the spirit of the Ofqual Recognition Conditions and Criteria. All the Qualification Regulators are committed fully to reducing bureaucracy and adopting approaches which assist awarding bodies to operate across all four UK countries. It is recognised however, that there may be a need to meet country specific requirements and legal obligations.
